Color palette, typography, and usage for logo design

Color Palette

SAND	Sand — Background HEX #FAF6F0 OKLCH oklch(0.972 0.018 78)
DUNE	Dune — Secondary / warm neutral HEX #E8C5A0 OKLCH oklch(0.851 0.068 65)
TERRACOTTA	Terracotta — Accent HEX #C17C74 OKLCH oklch(0.642 0.108 30)
FOREST	Forest — Primary (buttons, banners) HEX #2D5A3D OKLCH oklch(0.405 0.063 152)
INK	Ink — Text / deep neutral HEX #1F1A16 OKLCH oklch(0.21 0.012 60)

Typography

Instrument Serif — Headings

Used for H1–H4, display type, and editorial moments. Regular weight, slight negative tracking.

Work Sans — Body & UI

Weights in use: 300, 400, 500, 600. For paragraphs, labels, navigation, buttons.

Recommended Usage

Headings	Instrument Serif, Ink (#1F1A16) on Sand. Reversed to Sand on Forest banners.
Body	Work Sans 400, Ink on Sand. Line height 1.5–1.7. Avoid pure black.
Buttons	Forest background, Sand text, Work Sans 500. Hover: Forest at 90% opacity.
Accents	Terracotta for links, selection, focus rings, and small highlights — never large areas.
Surfaces	Sand as the default canvas. Dune for soft cards and warm neutral blocks.
Logo on dark	Use Sand or Dune on Forest / Ink. Maintain clear space $\geq$ cap height around the mark.
